CAREER SUMMARY

Beyza CANKURTARAN, who is studying in the 4th grade at Konya Food and Agriculture University, is a junior software developer who works in the fields of web programming, mobile programming, artificial intelligence and data science and tries to improve herself with various training programs.. I have developed projects in this languages ;**HTML, CSS JavaScript, Python PHP, SQL, Microsoft PowerBI, Flutter and Dart** and I am actively searching for a job/internship to gain new experiences.

EDUCATION
Computer Engineering, 2020-2024, Konya Food and Agriculture University,Konya(100% English)

EXPERIENCE
Atomedya Advertising Agency, Intern, (06/2023)-(08/2023)
- In 20 working days, I learned CSS in detail and write lots of JS code for lots of websites.

Konya Metropolitan Municipality, Intern, (07/2022)-(09/2022)
- In 30 working days, I learned HTML-CSS-JS from scratch, prepared a small student database, and created a website that will perform CRUD operations in the database.

SKILLS AND STRENGTHS

- **Web Programming** - I developed different sites with various designs and databases during my internships.
- **Mobile Programming** - For my final project after a bootcamp, i developed an application with NASA API.
- **Artificial Intelligence** - Developed small projects for both courses and bootcamps with Python.
- **UI/UX Design** -Since I worked mainly in web design during an internship, I had the opportunity to work on UI/UX design.
- **Team Worker** -Since she works with teams in most of the projects she works on, she handles working with a team. In this way, my multitasking skills have also improved.

PROFESSIONAL ACCOMPLISHMENTS
- For my mobile application called Astronomy Picture of the Day, I prepared a flutter application that extracts information from NASA API and gives output after receiving the inputs for the desired day.
- She has C1 level English and A2 level Deutsch.
- She has 3,11 GPA.
